 anuskabsu@gmail.com

Urban planner, urban designer, and architect with dual master's degrees in Urban Design and Urban & Regional Planning. My experience bridges professional planning practice and applied research, combining GIS, spatial analysis, R, and design thinking to develop evidence-based planning solutions. I have contributed to more than 20 urban planning, urban design, and architectural projects from concept development through technical documentation.

EDUCATION

Master's in Urban Design
Ball State University | 2024–2025

Master's in Urban and Regional Planning
Ball State University | 2023–2025

Bachelor's in Architecture
Institute of Engineering, Tribhuvan University | 2015–2020

EXPERIENCE

Research Assistant

Institute of Urban Development and Policy Research | 2025–Present

- Analyze demographic, housing and policy datasets using **R**, **tidycensus**, **ggplot2** and **Plotly** to support planning and post-disaster recovery research.
- Clean, integrate and manage complex research datasets while maintaining reproducible analytical workflows using Git.
- Translate complex demographic and policy data into visualizations, tables and research documentation for multidisciplinary research teams.
- Improve analytical workflows by integrating AI-assisted coding, automation and reproducible research practices while maintaining data confidentiality.

Graduate Assistant and Research Assistant
Ball State University | 2023–2025

- Supported faculty research by analyzing quantitative and qualitative data from the **U.S. Census, ACS, Bureau of Labor Statistics, GIS and local planning datasets**.
- Developed GIS maps, spatial analyses, planning reports and presentation materials for research, coursework and public engagement.
- Assisted with course delivery while collaborating with faculty on research initiatives and departmental communications.

Volunteer
UN-Habitat Nepal | 2022–2023

- Synthesized stakeholder discussions and technical workshops into reports and briefing documents that informed inclusive urban planning and policy discussions.
- Translated community perspectives and planning recommendations into documentation that informed urban development initiatives and policy discussions.

Urban Designer/ Architect
Urban Park Pvt. Ltd. | 2020–2023

- Led and contributed to 20+ urban planning, urban design and architectural projects, guiding work from concept development through technical documentation.
- Conducted site analysis, feasibility studies and spatial assessments that informed planning, urban design and development decisions.
- Developed master plans, construction drawings, technical reports and design visualizations for residential, commercial, hospital and mixed-use developments.
- Collaborated with multidisciplinary teams, consultants and clients to deliver complex projects on schedule while balancing technical, regulatory and design requirements.

Graphic Designer Volunteer
Society of Nepalese Architects | 2020–2022

- Designed conference branding, publications, presentation templates, signage and digital communication materials for national and international events.
 - Participated in international affordable housing research and coordination during the **Affordable Housing Activation program** in Madrid, Spain, contributing to comparative discussions on housing design and policy.
-

SELECTED PROJECTS

The Connected Pathway | Indianapolis Greenway & Mobility Plan

Master's in Urban Design | Ball State University

- Designed a citywide greenway network connecting parks, neighborhoods and community destinations through multimodal planning.
- Conducted **GIS-based spatial analysis**, demographic analysis, environmental assessment, literature review and field observations to identify connectivity gaps and planning opportunities.
- Developed evidence-based planning recommendations to improve park connectivity, expand multimodal access and prioritize investment in underserved neighborhoods.
- Produced implementation strategies supported by GIS mapping, spatial analysis and design visualization, using **ArcGIS Pro, Adobe Illustrator, InDesign and SketchUp**.

Union City Comprehensive & Strategic Reinvestment Plan

Master's in Urban & Regional Planning | Ball State University

- Collaborated with a multidisciplinary team to develop long-term strategies for housing, transportation, economic development and downtown revitalization.
- Participated in public meetings, stakeholder engagement and community surveys to incorporate resident priorities into planning recommendations.
- Prepared planning graphics and implementation materials for presentations to local officials and community members.

Anderson Economic Development Plan

Master's in Urban & Regional Planning | Ball State University

- Evaluated workforce and economic trends to identify opportunities for business growth, using **U.S. Census, Bureau of Labor Statistics, StatsIndiana** and local government data.
- Conducted policy and market research to support recommendations for workforce development and community investment.
- Contributed data-driven strategies that aligned economic development goals with local planning priorities.

Old West End Community Development Plan

Master's in Urban & Regional Planning | Ball State University

- Assessed neighborhood conditions through site visits, historical research, survey and community analysis.
 - Developed recommendations focused on historic preservation, housing stabilization, walkability and placemaking.
 - Presented findings through professional reports and visual materials for faculty and community.
-

AWARDS

- Best Portfolio Award, Ball State University — 2024
 - Best Thesis Award, Tribhuvan University — 2020
 - 1st Place, International Student Photo Contest, Ball State University — 2024
 - Winner, People's Choice Category Photo Contest — 2024
-

PUBLICATIONS

- [*Rehabilitating Squatter Settlements*](#), The Himalayan Times — Jan 4, 2023
 - [*World Habitat Day 2022: Inclusive Cities for Sustainable Urbanization in Nepal*](#), UN-Habitat Nepal — Dec 2022
 - *Affordable Housing Activation and Inclusive Urban Design in Nepal*, Poster presentation, Society of Nepalese Architects (SONA) International Conference, Madrid, Spain, 2022.
-

SKILLS

GIS & Analysis

- ArcGIS Pro
- R (tidycensus, ggplot2, plotly)

Design

- Adobe Illustrator
- Photoshop
- InDesign
- AutoCAD & Revit
- SketchUp
- Rhino

Visualization

- Lumion
- Enscape
- V-Ray

Other

- Microsoft Office
 - Sketching
 - Hand Rendering
-

PROFESSIONAL REGISTRATION

- Registered Architect, Nepal Engineering Council, Regd No: 2839 Architecture "A" category
