 anuskabsu@gmail.com

Urban planner and designer with dual master's degrees in Urban Design and Urban & Regional Planning and a background in architecture. Experienced in GIS, site analysis, planning research, community engagement, and data analysis. Skilled in using ArcGIS and R to translate planning data into maps, visualizations, reports, and evidence-based recommendations.

EDUCATION

Master in Engineering Management
Master in Urban and Regional Planning
Master in Urban Design
Bachelor in Architecture

Trine University | 2026–Current
Ball State University | 2023–2025
IOE, Tribhuvan University | 2015–2020

EXPERIENCE

Research Assistant

IUDP | 2025–Present

- Clean, organize, and analyze research datasets in R using tidycensus, ggplot2 and Plotly to support post-disaster recovery research.
- Produce statistical summaries, visualizations and technical documentation that inform ongoing research activities.
- Maintain reproducible research workflows using Git while collaborating with interdisciplinary research teams.
- Apply AI-assisted tools responsibly to improve coding efficiency and analytical workflows while protecting confidential research data.

Urban Planner / Architect

Urban Park Pvt. Ltd. | 2020–2023

- Developed master plans, urban design proposals and architectural projects from concept development through construction documentation.
- Conducted site analysis, feasibility studies and spatial assessments to inform planning and design decisions.
- Prepared technical drawings, reports and visualizations while coordinating with multidisciplinary project teams.

Graduate Assistant

Ball State University | 2023–2025

- Conducted quantitative and qualitative research using U.S. Census, ACS, Bureau of Labor Statistics, GIS and local planning datasets to support comprehensive projects.
- Produced GIS maps, planning graphics, reports and presentations using ArcGIS Pro and Adobe Creative Suite.
- Supported faculty research, course instruction, grading and departmental communications.

Rapporteur-Volunteer

UN-Habitat Nepal | 2022–2023

- Documented stakeholder workshops and public engagement sessions, synthesizing discussions into reports that informed planning processes and community engagement efforts.
