

Discuss what method generated the most desirable result for you. Explain.

Union Tool is beneficial as it retains all information from both the Hoosier National Forest management and the Managed Lands of the Interior Plateau. It ensures that all parks and recreation areas, along with their management details, are included in the final dataset. It also included all attributes and geometries. The Update Tool modified and added new information to the layer without creating a new dataset. The Merge Tool created a new dataset that includes parks and recreation areas from both sources. It combined the layers without preserving distinct attributes.

Conclusion: For creating a detailed "Parks and Recreation" database that includes all management details, the Union tool works better as it generates the most comprehensive and desirable result.

1. How many Ecoregions are in the state of Indiana? Use Level 3 and identify.

There are 6 Ecoregions in the state of Indiana:

- Central Corn Belt Plains
- Eastern Corn Belt Plains
- Huron/Erie Lake Plains
- Interior Plateau
- Interior River Valleys and Hills
- Southern Michigan/Northern Indiana Drift Plains

2. Hoosier_Natl_Forest_Mgmt_in.shp only appears in Ecoregion (level 3) Interior Plateau.

3. How many counties are overlapping with Ecoregion Level 3 class 56 (Southern Michigan / Northern Indiana Drift Plains)? Make a list of these counties:

There are 20 counties overlapping with Ecoregion Level 3 (Southern Michigan / Northern Indiana Drift Plains):

- Steuben County
- Wabash County
- Allen County
- Marshall County
- Lake County
- LaPorte County
- Cass County
- Fulton County
- Porter County
- Elkhart County
- LaGrange County
- Pulaski County

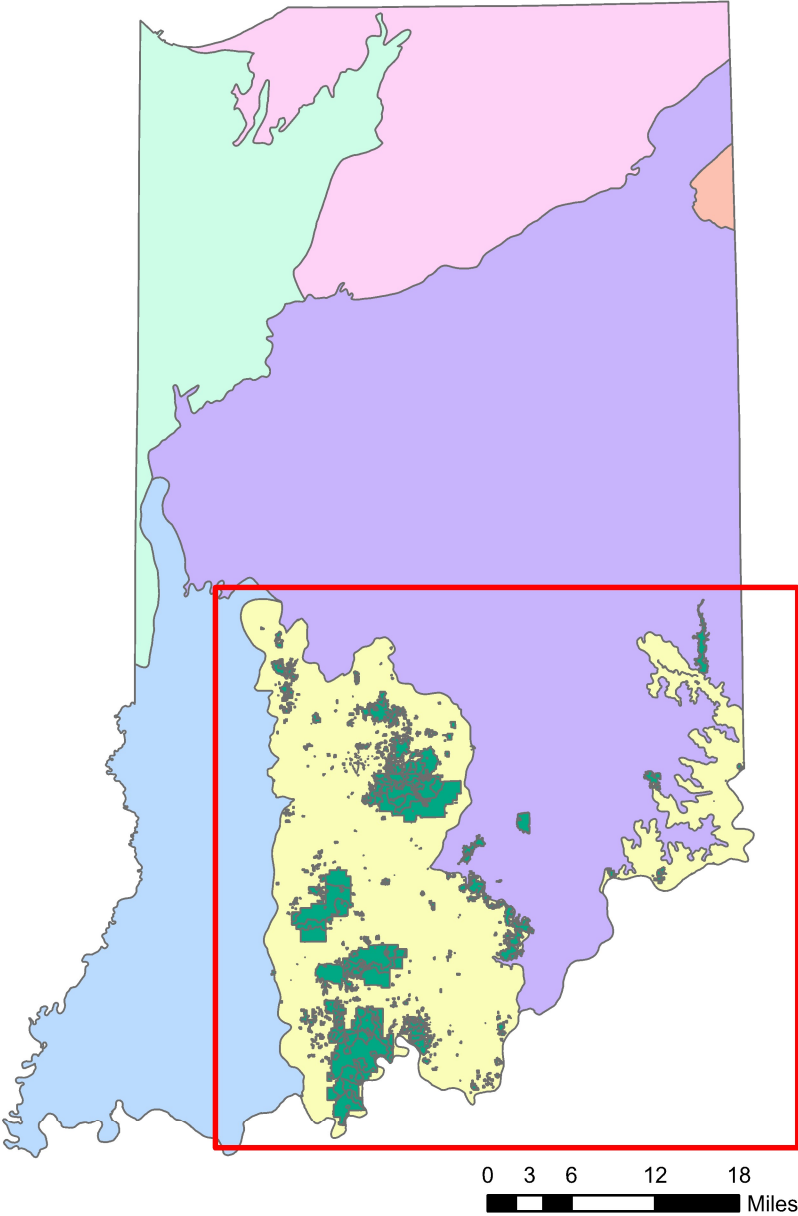

- St. Joseph County
- Starke County
- Kosciusko County
- White County
- Noble County
- DeKalb County
- Miami County
- Whitley County

4. How many counties are overlapping with Ecoregions_InteriorPlateau.shp?

There are 31 counties overlapping with Ecoregions_InteriorPlateau:

- Ohio County
- Perry County
- Orange County
- Dubois County
- Scott County
- Ripley County
- Franklin County
- Bartholomew County
- Greene County
- Johnson County
- Owen County
- Jefferson County
- Floyd County
- Harrison County
- Brown County
- Clark County
- Morgan County
- Crawford County
- Switzerland County
- Spencer County
- Clay County
- Daviess County
- Dearborn County
- Jackson County
- Martin County
- Monroe County
- Putnam County
- Parke County
- Fayette County
- Washington County
- Lawrence County

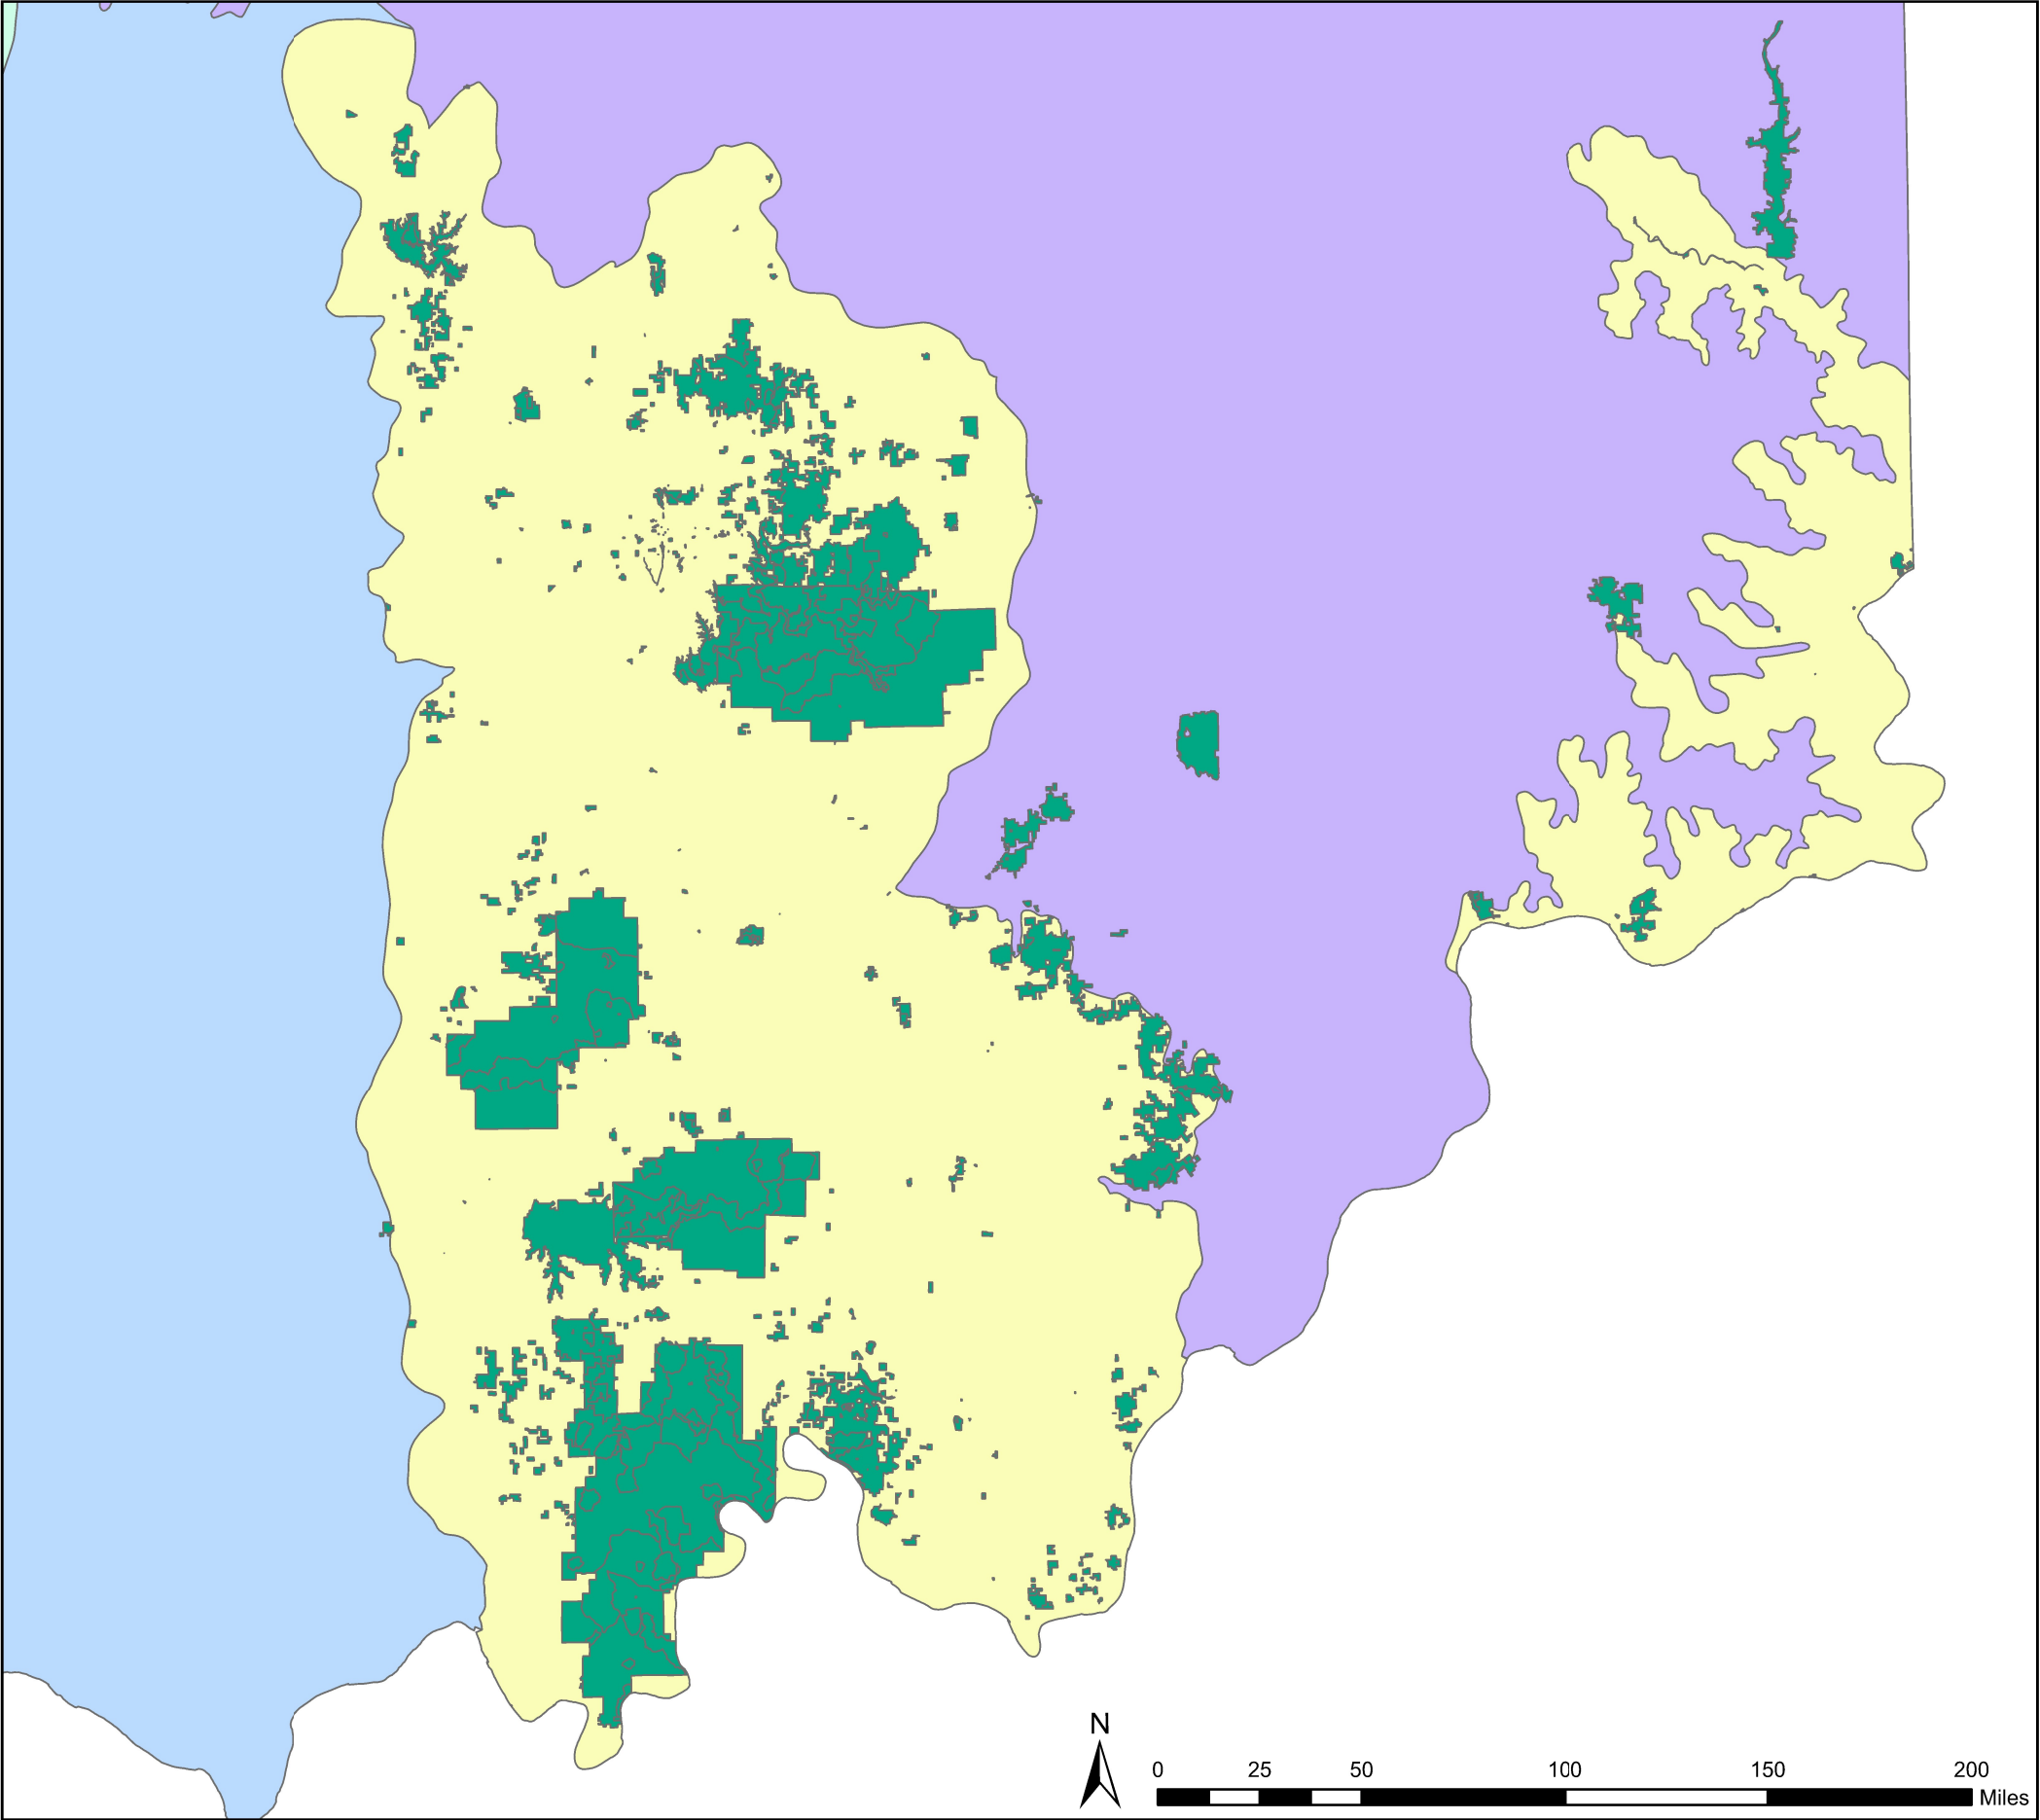

PARKS AND RECREATION WITHIN INTERIOR PLATEAU OF INDIANA

LEGEND

- Parks and Recreation
- Central Corn Belt Plains
- Eastern Corn Belt Plains
- Huron/Erie Lake Plains
- Interior Plateau
- Interior River Valleys and Hills
- Southern Michigan/Northern Indiana Drift Plains
- <all other values>
